PIA ELLEINE L. LUCERO

Dasmariñas, Cavite, Philippines | 09943375464 | piaelleinelucero2105@gmail.com

PROFESSIONAL SUMMARY

Fourth-year Bachelor of Science in Information Technology student at National University – Dasmariñas with academic project experience across web and mobile application development, UI/UX, software testing, requirements-related research, data analysis, and project coordination. Has contributed to team-based projects through interface and frontend work, task coordination, research, documentation, and technical integration activities. Seeking a 400-hour OJT opportunity where technical skills, analytical thinking, collaboration, and willingness to learn can support a software or IT team.

EDUCATION

King's Way Christian Academe | Naic, Cavite
Junior High School | Year Graduated: 2021
Cavite Science Integrated School (Regional Science High School) | Maragondon, Cavite
Science, Technology, Engineering, Mathematics (STEM) | Senior High School | Year Graduated: 2023
National University | Dasmariñas, Cavite
Bachelor of Science in Information Technology (BSIT) | 4th Year | Expected Graduation: 2027

PROJECTS

ALWAN | *Online Lending Application* | Capstone Project

- Led the project team by assigning tasks, coordinating development activities, conducting research, and maintaining project documentation.
- Coordinated with developers and project stakeholders, while contributing to the frontend and supporting the development of the online lending application.
- Worked with a technology stack that includes React, TailwindCSS, and Supabase; the application was deployed online.

NOOK PH | *Rental Management Application* | Academic Project

- Coordinated a five-member team by organizing tasks, following up on progress, and aligning individual contributions with project requirements.
- Contributed to research, project documentation, and frontend work. The project was completed as an academic system and was not deployed.

Kya Ko Yarn | *E-commerce Website* | Academic Project

- Led a six-member team through task distribution, research, documentation, and coordination with team members and stakeholders.
- Contributed to frontend development and helped complete the project, which was deployed using Vercel.

LakbAI / TsuperTech | *Jeepney QR Fare and Location Concept* | Academic Project

- Worked on a proposed digital solution involving QR-based jeepney fare processing and location-related features, with a concept spanning React/Expo and Firebase technologies.
- Contributed to early planning of the user-facing and operational workflows for a commuter-focused application.

PROJECT & TECHNICAL SKILLS

Project Coordination: Task assignment, team coordination, progress follow-up, research, and project documentation
Business/System Analysis: Requirements-related research, understanding project needs, and communicating with stakeholders
Web Development: HTML, CSS, Tailwind CSS, React, Flutter, Bootstrap
Mobile Development: Flutter, React Native, Expo
Programming / Backend: Java, Supabase, MySQL, Oracle Database
Design: Figma, UI/UX fundamentals, Canva
Productivity & Collaboration: Google Docs, Google Sheets, Google Drive, Microsoft Excel, Jira (basic familiarity), Git, GitHub, Visual Studio Code, Android Studio,
Other: AI-assisted frontend development; basic AI concepts

ORGANIZATIONS

Graphic Designer | Computer Society

- Designed publication materials (pubmats) for organization events and announcements.

CERTIFICATIONS & TRAINING

- **Certiport Certification** (June 08, 2026) – HTML and CSS
- **Certiport Certification** (September 24, 2025) – Databases
